DETAILED ACTION

1. Applicant's amendment, dated October 22, 2002 is acknowledged and entered. Claims 1-30 are pending. Claims 1-24 are withdrawn from consideration. Claims 25-30 are examined.

Response to Amendment

2. The following objections/rejections are withdrawn in view of Applicant's amendment:
- The objection to claim 25 is withdrawn in view of Applicant's amendment.
 - The rejection of claims 25-30 under 35 U.S.C. 112, second paragraph, is withdrawn in view of Applicant's amendment. *With regard to claim 30, the method step of overlaying infected cells with agar is performed after step (b) and before step (c) of claim 25.*

Response to Arguments

3. The rejection of claims 25-30 under 35 U.S.C. 102(b) as unpatentable over Dubensky, Jr. *et al* (5,789,245) is withdrawn in view of Applicant's persuasive arguments.
4. The rejection of claims 25-30 under 35 U.S.C. 103(a) as obvious over Dubensky, Jr. *et al* (5,789,245) is maintained for reasons of record. Applicant's arguments have been carefully considered but fail to persuade.

Applicant mainly argues that Dubensky teaches that plaque assays were not used to determine titer (col. 124, lines 11-21 of Dubensky). In response, the Office has considered Dubensky's teaching found in column 124. Lines 11-21 teach that the titer of viral vectors,

Art Unit: 1648

lacking structural proteins, cannot be measured in a plaque assay in BHK-21 cells. However, vectors that are provided with structural proteins can be measured by plaque assay. Dubensky teaches packaging cells containing expression cassettes that provide structural proteins. When Dubensky's vector construct is introduced into the packaging cells (col. 5, lines 64-66), the structural proteins are produced allowing for particles to be produced and detected by plaque assay (col. 19-20, bridging paragraph).

Conclusion

5. No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
